

# Chair of Environmental Policy Theory

## Blue Laboratory (略称 Blabo)

### [Faculty]

Prof. Masazumi Ao (Doctor of Environmental Studies)

### [Number of applicants]

8 students

### [Seminar overview]

Students with a strong desire to learn about global environmental issues have been gathered so far. Research handled in the seminar is characterized by the fact that it is not limited to individual research for thesis studies, but also includes active group research that transcends the boundaries of the second to fourth year students.

### [The seminar's research themes]

- 1) Realization of a carbon-neutral society ⇒ **Targets for 2050**
- 2) Building a Green Economy Theory and Society
- 3) Environmental Education for Sustainability
- 4) International Environmental Cooperation, etc.

### [Contact]
